OPENCLAW IS AN AI THAT CONTROLS ITS OWN COMPUTER.

This open-source AI agent can run on an old laptop, or a Mac mini, or a VPS, a Virtual Private Server. With its own hardware, email accounts, and web browser, its own memory and soul, installing OpenClaw creates a 24/7 AI assistant working on whatever you want.

MAKING IMAGES NOWADAYS ONLY REQUIRES IMAGINATION.

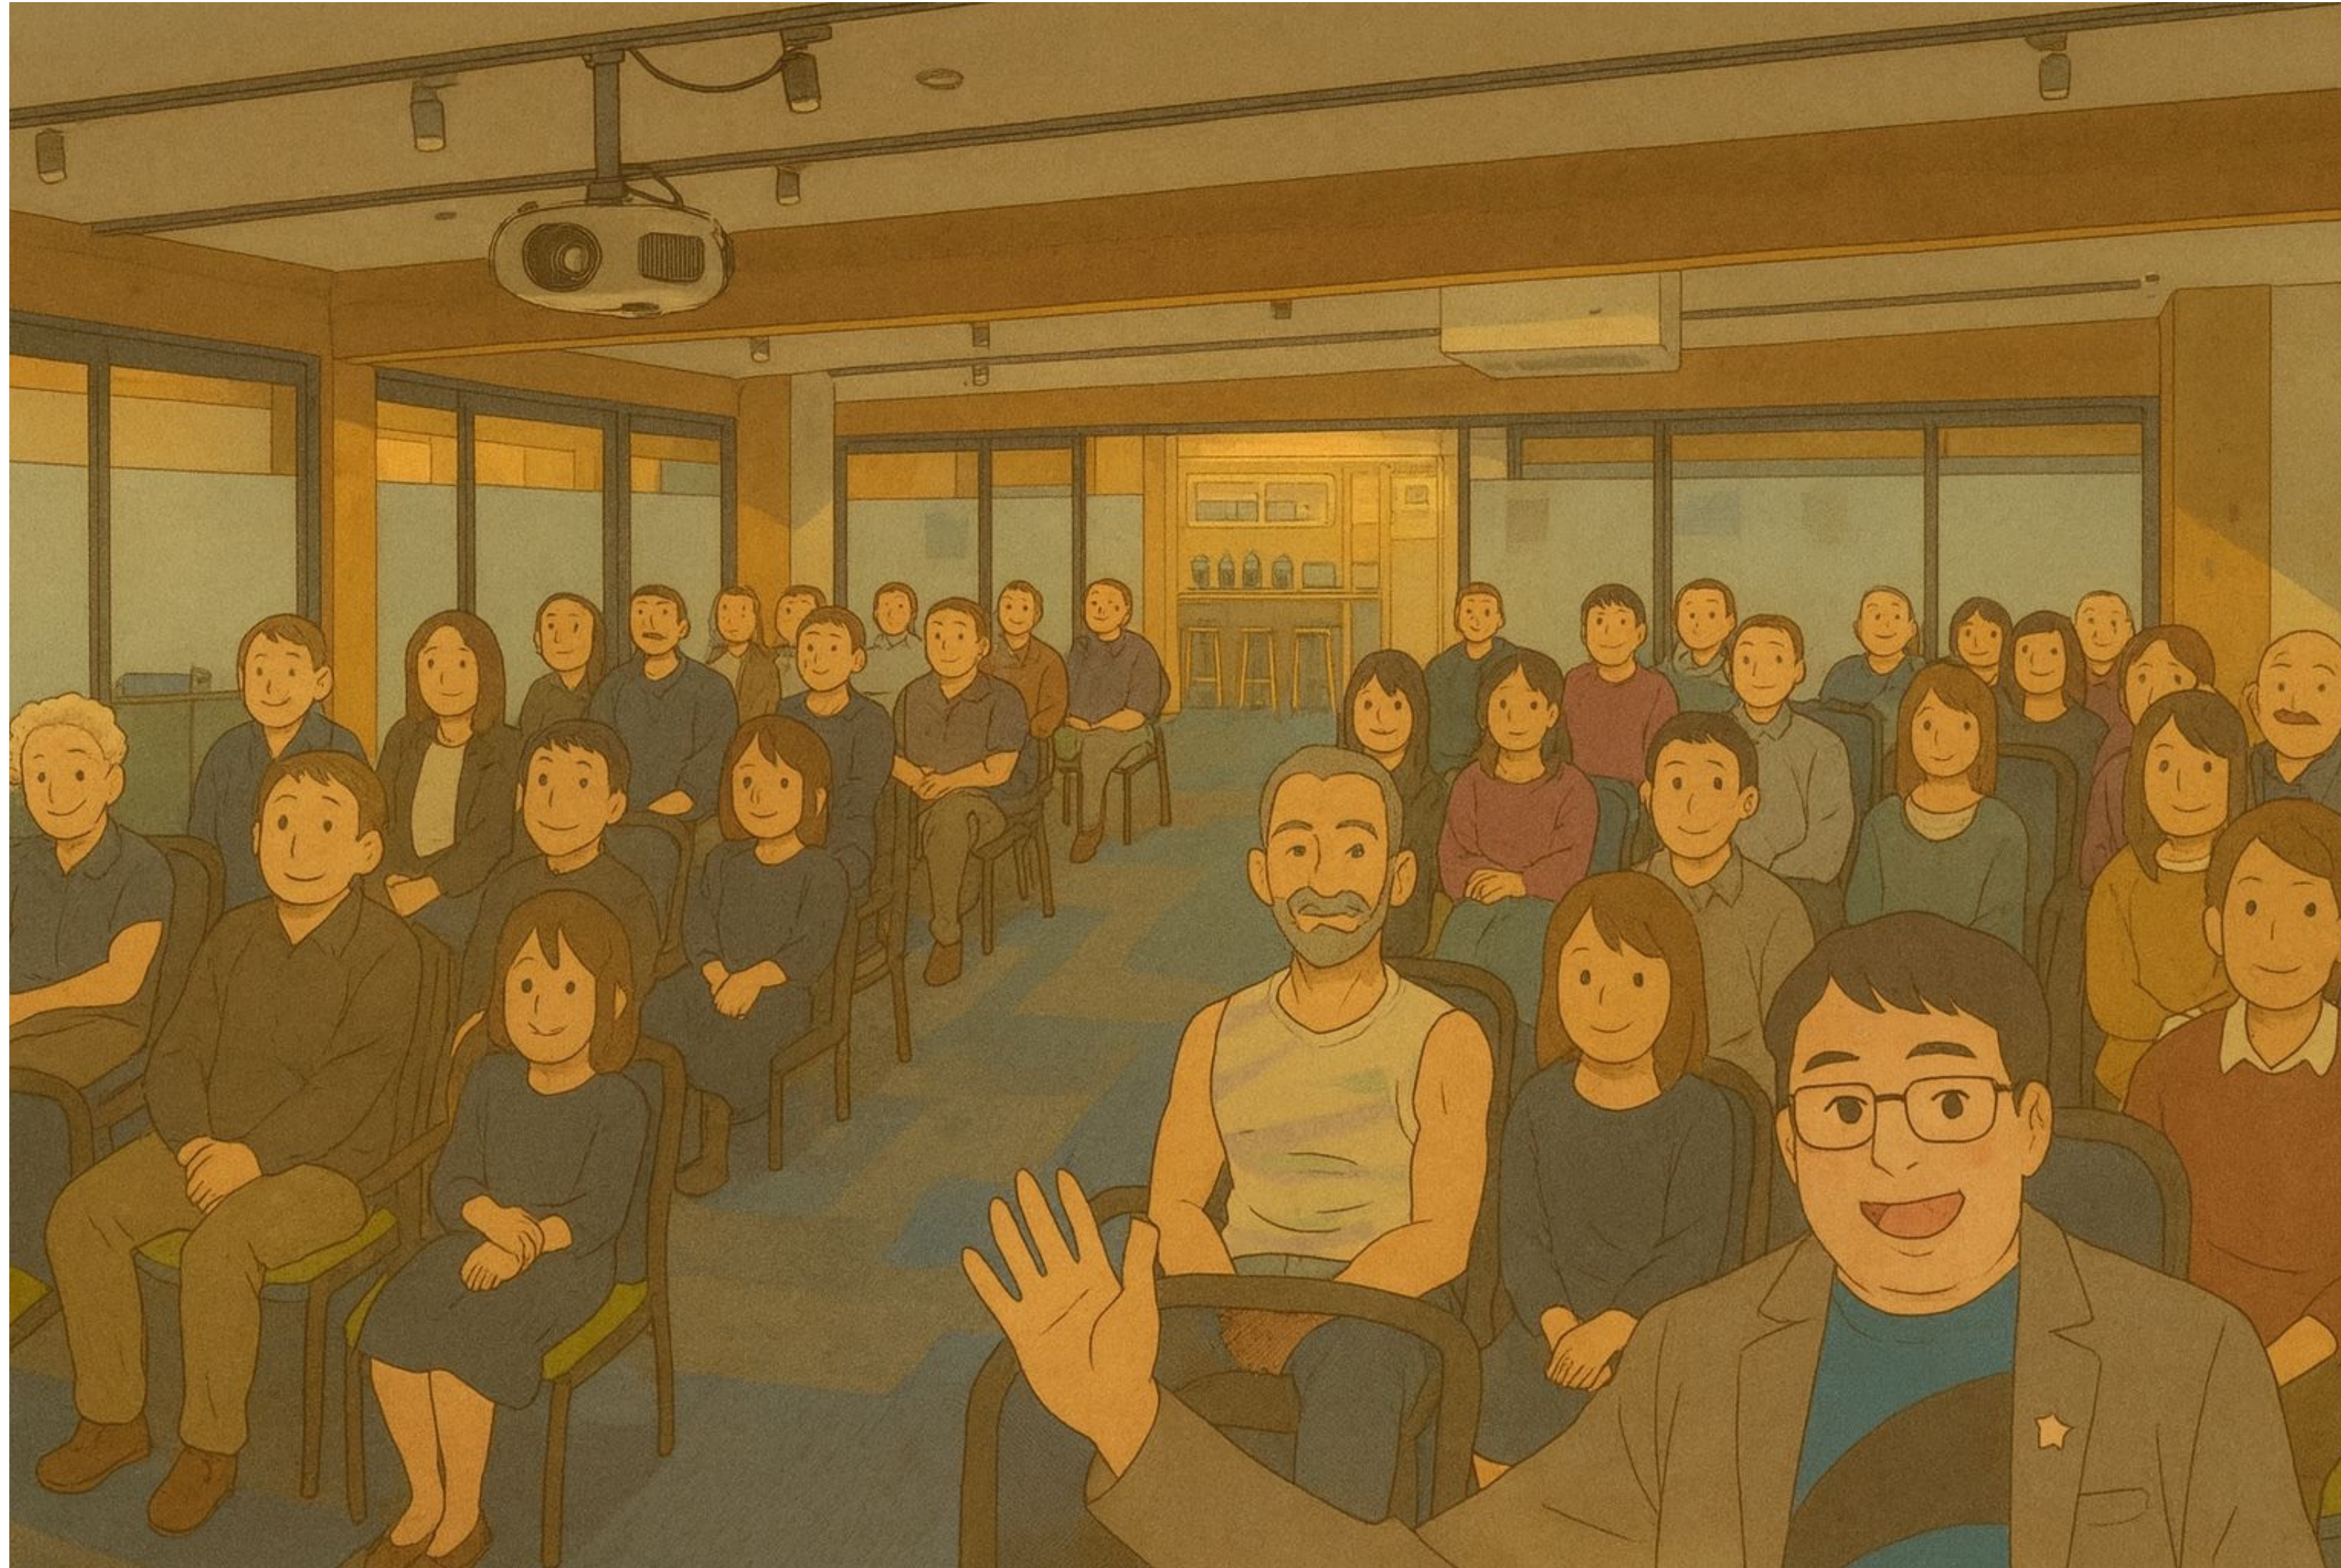

Visual art is no longer limited by skill or craft. Anyone with an idea can make an image in any style with AI. Now you can generate any image you can describe. The tools have become so simple, we are all artists now. Your willingness to refine and revise, to use your creative taste, matters more than your skill with a brush or a tool.

GAME: MIDJOURNEY PROMPTS

- ✦ **GOAL:** Write a detailed prompt that generates a stunning image
- ✦ **RULES:** Use concept, subject, style, setting, lighting, mood, and camera angle.
- ✦ **FEEDBACK:** Does the prompt create a clear mental image before it's even generated?

GAME: MIDJOURNEY PROMPTS

1. Describe a surreal version of an everyday object in cinematic style.
2. Write a Midjourney prompt that turns this idea into a scene from a sci-fi movie.
3. Now make a Midjourney prompt for this concept in Norman Rockwell style.

PROMPT ENGINEERS ARE MOVIE PRODUCERS NOW.

Big ideas can become high quality videos with only a text prompt. Producing video content used to require access to equipment, and talent, and funding. Now, you don't need a movie studio, or a graphics budget, or even skills. Just a good idea (and good taste!) can make a good movie, with a little prompting.

Core Principle

The image dictates character, environment and lighting

Your job is to direct motion

Motion Formula

Every prompt should include:

Subject motion

Camera motion

Environment motion

Speed and tone

Subject Motion Guide

- Turning head
- Walking
- Looking around
- Blinking
- Standing still

Camera Motion Guide

- Push in
- Pull out
- Tracking shot
- Pan right, left
- Pan right, left
- Pan right, left
- Pan right, left
- Pan right, left
- Pan right, left

Environment Motion Guide

- Wind
- Fog
- Hair movement
- Cloth movement
- Light movement

Example Prompt

The subject slowly **turns** toward camera. The camera slowly pushes forward. Wind moves hair gently. Natural cinematic motion.

Subtle motion works best. Small motion creates realism.

GAME: VEO 3 VIDEO ANIMATION

- ✦ **GOAL:** Create short text-to-video clips using Google's Veo 3 AI video generator.
- ✦ **RULES:** Write with a text prompt about a character. Then upload a source file, and evolve the story through short connected clips.
- ✦ **FEEDBACK:** Did the character's personality and emotion come through clearly? Did each video deepen the narrative?

GAME: VEO 3 VIDEO ANIMATION

1. A curious child meets a dog for the first time.
2. This character is the dog's owner, laughing at their meeting. UPLOAD
3. All 3 of them run off together.

“I came into Caelan’s workshop not knowing anything about custom GPTs or comparing prompts between different AI models. Now I can draft blog articles in my own voice, iterate across tools, and polish them in a fraction of the time. This training gave me the confidence to try new things, and a clear way of cutting through to what works. Caelan’s workshop was memorable and absolutely worth it.”
